

3M PF-619 Service Return Note

Flameskill Ltd (trading as UK Safety Products) is certified by 3M to carry out maintenance on the 3M PF-619 PAPR.

Regular and scheduled maintenance is essential for safe use of the equipment. In addition to pre-use and storage checks, check the apparatus on a monthly basis, and replace any defective parts. A qualified service and maintenance operator must perform a service on an annual basis.

To be completed and returned with 3M PF-619 Units
