

## Proflow EX 160 Service Return Note

Flameskill Ltd (trading as UK Safety Products) is certified to carry out maintenance on the Proflow EX 160.

Regular and scheduled maintenance is essential for safe use of the equipment. In addition to pre-use and storage checks, check the apparatus on a monthly basis, and replace any defective parts. A qualified service and maintenance operator must perform a service on an annual basis.

To be completed and returned with Proflow EX 160
